www.calumetphoto.co.uk

Calumet Photographic has been serving the needs of professional and serious photographers since 1939. We have gained the trust of our customers by providing them with highly dependable products at affordable prices. This guide reflects the very latest in Calumet Photographic's ever-growing product line.

As you will see, it is an extremely diverse and full selection that is geared for just about every conceivable photographic application, from basic accessories, such as background paper and tripods, to more sophisticated and specialised products, from studio lighting to wireless remote camera-triggering devices. All products have been designed to meet the needs of today's active photographer, whether you work at your leisure out in the field or within the everyday demands of the studio.

Beauty Dishes and Grids

Great for creating a soft unique wrap-around light with donut-shaped catch-light in your subject's eyes. These beauty dishes can be fitted for most monolights (compatible speedring required - sold separately). The reflector can also be used with the Calumet SpeedBox Flash Adapter for use with flashguns. Beauty Dish Grids are used to create a more directional light source.

Genesis Monolights

The Genesis AS250 and AS500 are highly efficient Studio Flash units, with LED modelling lamps, and built-in Genesis wireless receivers for remote, radio enabled operation and auto sensing capability. Extremely fast recycling times of under 1 second, and flash duration of up to 1/8000sec. Adjustable power in 1/10 steps and stroboscopic & high speed flash modes. Both models also accept Genesis and Elinchrom accessories.

The AS250 features 250w/s max. output power with a guide number of GN50 (M@ISO 100) and the AS500 features 500w/s max. output power with a guide number of GN70 (M@ISO 100).

Includes one flash unit with flash tube, LED modelling lamp, 8" umbrella reflector, power cord, protective cap and spare fuses. Genesis Remote sold separately.

Calumet Pro Series Digital Shutter Timer Controller

This easy-to-use controller is designed to trigger the camera's shutter with precise and regular time intervals. It features a self-timer, an interval timer, a long-exposure timer, and an exposure-count setting. It can be set anywhere from 1 second to 99 hours, 59 minutes, and 59 seconds. It is simple to use and can be operated with a single hand. The shutter release is a two-stage button in which pressing it half-way will cause the camera to focus, and pressing it fully will trigger the camera's shutter. Requires a shutter release cable (sold separately). See camera compatibility listings on this page.

Timer Options

- Self Timer - Allows you to take a single photo after a specified time period of up to 99 hours, 59 minutes, and 59 seconds.
- Interval Timer - Activates your shutter repeatedly at a specified period between exposures up to 99 hours, 59 minutes, and 59 seconds.
- Long-exposure Timer - With your camera set on "bulb", the timer will hold the shutter open for any specified time up to 99 hours, 59 minutes, and 59 seconds.

Other Features

- Number of Frames - Allows you to specify the number of exposures your camera will make up to 99, or set to fire indefinitely until it is stopped.
- Combined Timer Options - You may also combine multiple timer functions to perform a series of precisely timed actions at prescribed intervals.

The timer comes with a battery and lanyard that allows you to safely hang the timer from your camera or tripod while you are not attending it. **CF0098**

Calumet Pro Series Wired Remote Shutter Release

Compact and easy-to-use remote switch that allows you to activate all the functions of your camera's shutter release button without touching your camera. This is useful when making long exposures and to avoid camera movement.

Illuma Series Soft Boxes

Illuma boxes sport a thinner profile — a half-radial depth — which produces better efficiency, more stability and greater mobility than other soft boxes. They offer several unique features: a removable front diffuser, silver-with-white interior surfaces and two graduated inner baffles for contrast changes. The Illuma's two different inner baffles are designed to maximise the number of options in light quality. The different baffles also address the issue of the wide variety of flash-head designs by different manufacturers; this can greatly vary the way in which the flash is projected within the diffusion bank and whether or not the light values on the front diffuser are relatively even. The Illuma's inner baffles catch any of these various light projections and even out the light distribution. Also includes carrying case. Requires speed ring for assembly. Speed rings and adapters (sold separately) are available for a wide variety of popular lighting units.

Nova Series Soft Boxes

The all-white interior of this soft box provides a nearly homogeneous window-light quality of illumination. The radius-based depth evens the light to a 1:2 attenuation, which is considered by many professionals to be ideal for portraits and many product lighting tasks. All sizes except 16 x 22" (41 x 56cm) include inner baffle. Includes case. Requires a speed ring for assembly. Speed rings and adapters are available for a wide variety of popular lighting units (sold separately).

Nova V Series Soft Boxes

Here is the best solution for your video and hot-light needs. Using a soft box as your main light has become increasingly more popular in the Pro Video Market, and the V Series soft boxes are a most versatile and economical tool. These high quality soft boxes are made of high-heat-resistant fabric and are vented to allow the heat built up from your continuous light source to dissipate, thus extending the life of both your light source and your soft box. The V Series soft boxes will handle fresnel units up to 2000 watts and direct light tungsten light sources up to 1000 watts. The all-white interior of the V Series soft boxes provide a natural, soft window-light quality. For added light and contrast control, they feature removable front diffusion panels and a removable inner baffle.

The inside front lip of the V Series soft boxes are lined with a 3" (7.5cm) Velcro strip, allowing the user to attach a variety of light control devices for additional lighting effects. V Series soft boxes are easy to set up and break down and offer convenient storage and transport.

Requires speed ring for assembly. Speed rings and adapters (sold separately) are available for a wide variety of popular lighting units. V Series soft boxes are also compatible with the Chimera Speed Rings.

Nova Strip Soft Boxes

An excellent choice for shots that require long narrow reflective highlights, these Strip Soft Boxes are half as wide as the standard rectangular Nova Soft Boxes. They are also ideal for edge lighting or for lighting backgrounds. Nova Strip Soft Boxes also feature an all-white interior, removable front diffuser screen and a removable interior baffle for additional contrast control. Speed rings and adapters are available for a wide variety of popular lighting units (sold separately).

Calumet 40° Ribbon Grid Egg Crate

Expand your lighting capabilities and take full control of diffusion like never before. The Calumet 40° Ribbon Egg Crate is designed to control light distribution and edge spill by condensing the light source, while maintaining the soft box effect. It's perfect for controlling depth when shooting subjects against a background.

Each grid is made to last using our specification of lightweight flame-resistant nylon and hook-and-loop fasteners, which are then machine-stitched using computerised industrial sewing machines, with tolerances that assure size uniformity in each cell. They are easy to setup and are a perfect companion for the Calumet soft box family, which includes Nova, Nova Strip, Nova Video and Illuma. Great for portrait, video, studio or location.

Calumet QuickRing

Up until now, mounting the soft box support rods to your speed ring was a troublesome task at best. That last rod was always very difficult. Our QuickRing takes the stress and strain out of the whole procedure. Its patent-pending EasyFlip D Ring feature allows you to swing out the section with the fourth and last rod socket, making for a quicker and much easier insertion angle. When the final rod is in place, simply swing the Easy-Flip D Ring back into place and you are ready to mount your adapter insert ring and attach the soft box to your light source. The QuickRing can be used with any soft box, including Calumet, Chimera and Plume Wafers. Requires dedicated adapter insert (sold separately). **RM6400**

Calumet Universal Speed Ring

This high-quality, heat-resistant attachment is designed to fit all Calumet Soft Boxes as well as other brands' light banks. It features a convenient rotating mounting ring for easy positioning of the soft box while it is mounted on the flash or light head. Requires dedicated adapter insert (sold separately). **RD3100**

Adapter Rings For Most of Today's Popular Flash Systems

Adapter Ring S2 for Calumet/Bowens
This speed ring insert adapts the universal outer ring for the current Series 2 model Calumet/Bowens flash heads. It will not fit earlier Series 1 heads. **RD6210**

Adapter Ring for Profoto
This soft box speed ring insert adapts the universal outer ring for Profoto.
RD6230

Adapter Ring for Elinchrom/Calumet Genesis
This soft box speed ring insert adapts the universal outer ring for Elinchrom/Calumet Genesis.

CALUMET PHOTOGRAPHIC

Versatile, Dependable, Affordable Lighting

Perfect for Video and Stills!

Calumet Bravo Video Light

This portable, lightweight, focusing quartz-halogen lighting unit is ideal for a wide range of video and photographic applications. It provides smooth, continuous beam-angle adjustments for an efficient, continuous light source that is easy to work with.

Features:

- 3200° K colour temperature
- Focus-control knob and adjustable tilt
- Detachable pan/tilt umbrella mount
- Durable, lightweight construction
- Accepts a variety of accessories
- 1-year limited warranty

1000 Watt 220VAC Replacement Lamp	OL0117

Quattro Fluorescent Lamp

The Calumet Quattro lamp is a continuous light with four spiral fluorescent lamps, each with 35W in a very effective reflector. This 140W light output is equivalent to a 500W incandescent light, but without the same heat. This allows you to get close to subject and is therefore ideal for portraits and food photography.

The four lamps can be switched into pairs giving you more control over your lighting and a colour temperature of 5500K daylight for the best possible colour accuracy. The swivel joint can be attached to any light stand.

Description	Part No.
Quattro Fluorescent Lamp	CF0006
35w Spiral Fluorescent Lamp	OL2007

Features:

- Four 35W energy-efficient spiral fluorescent lamps (equivalent to a 500W incandescent lamp)
- 5500K daylight colour temperature delivers superior colour rendering - ideal for digital photography
- Long lamp life of 6,000 hours means less time and money replacing lamps
- Pan/tilt adjustment controls
- One Quattro Fluorescent Light
- Four 35-watt Spiral Fluorescent Lamps
- Reflector

Calumet DFM 3 Digital Flashmeter:

The DFM 3 measures ambient light and flash readings with precise digital accuracy for perfect exposures. Its digital LCD provides readings in tenth of stops while its analogue contrast display provides readings in half stops simultaneously.

The DFM 3 is capable of incident and reflective readings and its unique swivel head makes it easy to adapt the meter to both modes. Other features include the ability to take flash readings with or without a sync cord, storage of settings and readings and programmable exposure correction.

CF0300

Calumet Genesis 690 Speedlights

High performance flashguns compatible with both Canon EOS and Nikon CLS wireless flash systems, with a large guide number of 50 (ISO 100 at 180mm zoom position). The 690 Speedlight can serve as an on-camera flash as well as a master unit or slave unit in a wireless, multiple-speedlight system to achieve TTL and manual flash.

The Power Zoom function automatically adjusts the zoom position to match the lens focal length, the available zoom positions are between 24mm and 180mm. Also includes Flash exposure bracketing, Flash exposure lock and thermal cut-out safety feature.

Features:

- High Guide No.50
- Fast recycle time of 5s
- 5600K colour temperature
- 22 level light quantity output control
- LCD display
- I-TTL compatible
- Power zoom function
- Supplied with soft-case, diffuser and mini-stand
- One year limited parts and labour warranty

Calumet Pro Series 2.4GHz 4-Channel Wireless Trigger Kit

Take your flash off your camera and expand your creative capabilities with this 2.4GHz wireless triggering system. This trigger set will allow you to trigger your flash over 100 metres away. The 4-channel, radio-enabled circuitry prevents your flash from being triggered by other flash units around you, making it perfect for photographing at events or on location. Additionally the system can be used as either a wired or wireless remote shutter release for your camera. These units are supplied with cables to work with Bowens, Genesis, Elinchrom and Profoto studio flash systems.

The transmitter is equipped with a hot shoe for camera mounting and the receiver may be mounted to a cold shoe or a 1/4"-20 tripod or stand mount. Other features include a test/shutter button and a status LED to verify operations. This kit can also be used with Olympus and Sony cameras if purchased with the 06 or S6 Shutter Release Cable (sold separately). *Please note that these triggers do not transmit TTL information.*

Wireless TTL flash operation is not offered with this product, speedlights must be set to their manual mode, although the transmitter will allow TTL through operation when mounted to the camera hotshoe with a speedlight attached to the top of it.

Kit Optimized for Canon Flash Systems
Comes with C6 & C8 shutter release cables. **CF0090**
Extra receivers are sold separately. **CF0092**

Kit Optimized for Nikon Flash Systems
Comes with N6, N8, & N10 shutter release cables. **CF0094**
Extra receivers are sold separately. **CF0096**

Calumet Pro-Tilt Flash Bracket

Compact design offers quick adjustments to flash and camera to handle a wide variety of shooting situations, including bounce flash, close-ups, horizontals and verticals.

Bracket Features:

- Rubber, non-twist base with five camera-mounting holes.
- Flash attached by included shoe clamp or by the screw if the flash cord has a 1/4"-20 mount.
- Adjust height of the flash bracket by included hex wrench.
- Bracket arm easily flips to change from portrait to landscape.
- Tilt up to 90º backwards or forwards for bounce flash or close-ups.
- Convenient cord minder keeps your sync cord out of the way.
- Swing-out lever provides stability when setting your camera and bracket on the table or floor.

Calumet Pro Series 7" LCD Monitor with Sun Hood

The Calumet Pro Series 7" LCD Monitor is an extremely lightweight and portable monitor that allows you to enjoy broadcast-quality viewing in both colour and black-and-white. It can be attached directly to your DSLR or camcorder, or be used as a remote viewing monitor when the situation warrants.

The monitor's LED backlight provides longer life, uses less power and provides exceptional colour saturation compared to standard LCD monitors.

There are two video inputs and one audio input which allows composite (BNC, RCA) and HDMI connectivity. The monitor can be used with the latest HD video cameras and high performance DSLR cameras. It also features automatic NTSC/PAL format detection and 4:3 and 16:9 screen aspect ratios.

The monitor is powered by a lithium battery (sold separately). It comes with an adapter to use Sony "L"-series batteries, but can also use other batteries with optional adapters that are available for purchase separately. **DF0200**

Calumet DV Battery Plate Adapters

For use with the Calumet Pro Series 7" LCD Monitor (DF0200). Includes L-bracket, power cable and hook-and-loop fastener.

For Canon "BP"-Series Batteries	DF0223
For Panasonic "CGR"-series Batteries	DF0225
Converts the Sony plate adapter (DF0221) to Panasonic Batteries	DF0227

Pro4 LED Video Light

An extremely efficient and compact on-camera video light with 4 bright LED lights, creating an impressive 1200 lux of 5600k at a 60 degrees angle of illumination.

It features two built-in hard filters that swing in and out for quick application. One a 3200K daylight-to-tungsten warming filter and a white diffusion filter. Also included are a set of barn-doors and a clip-on wide beam diffusion filter that produces a soft-box effect. **CF9024**

Pro Series LED Studio Panel Light

These lightweight 12 x 12" (30.5 x 30.5cm) self-contained units, available in three options, offer flexible light-angle control via a swivel bracket with 5/8" female mount that can be attached to most light stands. All units feature a continuously variable dimmer control (100% off) that is detachable from the rear of the unit that can also be tethered by an 8' (2.4m) connecting cable for remote control when the unit is out of reach. For additional light control, the unit comes with a removable diffusion panel that attaches quickly and easily by hook-and-loop.

Weighing just 4.25lbs (1.97kg) and measuring just 13.75(l) x 3.25(w) x 14.75(h)" (35 x 8 x 37.5cm), including its swivel/ mounting bracket, and includes an AC/DC power supply with a 13' (4m) power cord. It can be powered by a variety of options, including an AC adapter (included), an Anton Bauer battery or a Sony DV battery.

Description	Part No.
Daylight 324 LED 1400 Lux of 5600K Light	CF9030
Daylight 576 LED 3460 Lux of 5600K Light	CF9033
BiColour 576 LED 3560 Lux of 3200-5600K Light	CF9036

Calumet Pro Series Digital Multi LED Panel Light

The Digital Multi LED Light Panel is an extremely efficient, self-contained unit that features 24 LEDs which provide up to 500 Lux of 5600K light. This general purpose light source is configured to work with 16:9 picture formats and produces a 60-degree angle of illumination.

The light comes with two hard filters that swing in and out in front of the light for quick application. One is a 3200K daylight-to-tungsten warming filter and one is a white diffusion filter. Also included is a clip-on, wide-beam diffusion filter that produces a soft-box effect.

Other features of this light include a dimmer that adjusts the light from 100% down to off. The light can be mounted with either the cold shoe mount or a 1/4"-20 female thread.

The unit is powered by four AA batteries (sold separately) which will power the unit for up to two hours. **CF9014**

Calumet Pro Series Digital Single LED Video Light

This small, self-contained, general-purpose, auxiliary light will mount directly on to your camera. It uses a single-light, high-density LED crystal that produces an impressive 190 Lux 5600K light at a 60-degree angle. The LED has an extremely long life of 30,000 hours.

The video light uses a rechargeable Li-Ion battery that will power the light for approximately two hours. The light can be attached to cameras with it's built-in cold shoe. **CF9010**

Pro Series LED Panel Light

This self-contained unit features 96 super-bright LEDs which provide up to 800 Lux of 5600K light. It's configured to work with 16:9 picture formats and produces a 65-degree angle of illumination. Each unit comes with two magnetic filter plates that snap quickly onto the front of the unit. One is a 3200K daylight-to-tungsten warming filter and one is a white diffusion filter. They can be mounted individually, or on top of one another.

What makes this light so versatile is its expandable link system that allows you to attach multiple units together, creating a larger and/or wider light panel as you need it. They can be mounted in configuration so of 2, 3, 4, 6, or 9 units for one huge light source.

Adding to this versatility is the wide variety of power options available, including standard AA batteries, AC adapters, rechargeable Li-Ion battery kits, and more The operating voltage range is from 5.8 to 16.8V DC. Each unit measures just 5(l) x 1.8(w) x 3(h)" (13 x 5 x 8cm) and weighs only 6.6oz (188g). **CF9020**

Multiple units shown. Only one unit supplied

ZipDiscs

This system features collapsible, round reflectors that are extremely versatile and portable. Choose from three types, each available in three different sizes. The Translucent ZipDiscs offer a soft, diffused light. The two-sided Gold-Silver/White reflectors offer neutral white or warming options. The Silver/White reflectors provide a choice of neutral white and efficient silver. Reversible covers with black, silver, white and gold are also available.

Gold is great for warm skin tones and filling in shadows by reflecting golden sunlight.

Gold-Silver Zigzag combines gold and silver in a "Z" pattern. Turns high contrast into an even tone and adds warmth to your subject.

Silver adds specular highlights for a high-contrast image.

Translucent White illuminates curves and details with natural, white light.

Calumet Telescopic ZipDisc Holder

Designed specifically to hold all models of ZipDiscs, this versatile 6' (1.8m) mini-boom arm also works well with most other portable reflector and diffusion systems. It is versatile enough to accommodate all light stands and is made of anodised black aluminium to prevent reflections when shooting. **MF6860**

Calumet Telescopic ZipDisc Holder with 8.5' (2.6m) Three-Section Light Stand

Includes one Calumet Telescopic ZipDisc Holder (MF6860) and a Calumet 8.5' (2.6m) three-section light stand. **MF6860K**

Calumet Heavy-Duty Telescopic Zipdisc Holder

The Calumet Heavy-Duty Telescopic Zipdisc Holder with adjustable head will adjust to hold discs or panels from 25.5 to 68.5" (65 to 174cm). This system allows you to position your light exactly where you want it, without the aid of an assistant! It has a solid 0.38" (1cm) tip, so it can also be used as a small boom arm for a portable flash. The Telescopic Zipdisc Holder is versatile enough to accommodate all light stands, and it's made of anodised black aluminium.

Specs: Collapsed length 29" (74cm), Length: 74.4" (189cm), Weight: 1.8lbs (0.82kg) **MF6862**

Calumet Light Control Panel System

This lightweight, portable reflector system offers fast and easy setup and unlimited light control. Each frame is hinged at the corners and features dismantling joints, making setup and breakdown easy. Frames self-lock into position, forming rigid supports for a wide variety of fabrics and light-control applications.

Aluminium Frames

Calumet's aluminium frames combine lightweight portability with durable performance.

Calumet Silver/White Umbrellas

These dual-purpose umbrellas feature a white interior surface backed by removable silver fabric with a black exterior. This provides a soft but highly efficient bounced light source. For close-up lighting, the silver/black backing can be removed, allowing you to get closer to the subject while lighting through the umbrella. The unique eight-panel design provides maximum reflectance and a circular pattern of light.

Description	Part No.
36" (90cm) Silver/White Umbrella	AU3036
46" (117cm) Silver/White Umbrella	AU3046
60" (152cm) Silver/White Umbrella	AU3060

Removable Split-shaft
Feature enables excess umbrella rod to be shortened or elongated.

Removable Silver Fabric
With black exterior allows for lighting through the white umbrella interior.

Reflective Silver Lining
Allows for maximum reflection.

Calumet 16 Panel Umbrellas

The silver/black umbrellas feature a highly efficient smooth silver interior that provides a crisp, bright quality of light with more contrast than a white umbrella. The Translucent Umbrellas create a soft light without harsh shadows.

Ideal for portraiture, the 16-panel design and deep profile creates a pleasing round catch-light and allows you to reposition your light source along the shaft for additional light control.

Description	Part No.
52" (132cm) Silver/Black Umbrella	AU32520
52" (132cm) Translucent Umbrella	AU32521
65" (165cm) Black/Silver Umbrella	AU32650
75" (191cm) Translucent Umbrella	AU32751

Image 1 Image 2

Calumet 45" (114cm) Umbrella With Removable Black Cover

This excellent general-purpose umbrella features a white, satin-textured, reflective fabric positioned under the rib structure. This placement removes the ribs from the path of light to eliminate their ghost image from appearing on the subject (image 2). A removable black fabric cover prevents any light from penetrating the white fabric that could contaminate colour balance (image 1). For high-key lighting, just remove the cover to allow light (approximately 25%) to pass through and bounce around the studio.
AU3045

Calumet 46" (117cm) Silver Umbrella

Our 46" (117cm) silver umbrella provides the maximum combination of reflection, plus a circular pattern of directional light. Its versatile and efficient performance has made it a staple for studios across the country. You can't beat the value! **AU3146**

Calumet 43" (109cm) Satin White/Silver Compact Umbrella

This versatile umbrella features an efficient satin-white interior and removable silver fabric with black backing. The satin-white interior surface produces a pleasing soft, but crisp effect. With the backing removed, it becomes a convenient shoot-through diffuser.

The telescopic umbrella shaft can reduce down to just over 15" (38cm), making the umbrella extremely portable for taking on location. The shaft also comes with a solid tip to help prevent it from crushing.
AU30430

Calumet 43" (109cm) Satin White Compact Umbrella

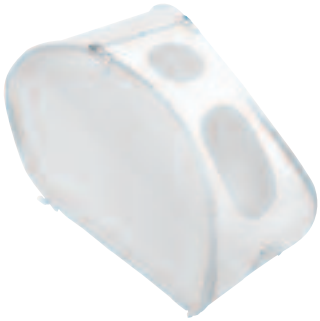
A perfect general-purpose light-control tool, this umbrella features an efficient satin-white interior with a fixed black backing. It produces a pleasing soft, but crisp effect.

The telescopic umbrella shaft can telescope down to just over 15" (38cm), making the umbrella extremely portable for taking on location. The shaft also comes with a solid tip to help prevent it from crushing.
AU30432

Calumet PortaCube Portable Shooting Station

If you're looking for a simple, portable solution for shooting small products with high-quality lighting, the PortaCube is perfect for you. This compact and economical folding tabletop allows you to create professional-quality photographs in your office, home or on location. The PortaCube consists of two translucent side walls and a translucent top that allow your subject to be illuminated with diffused light from the sides or the top. A double-sided cloth background fabric allows you to create a nondistracting, seamless sweep behind your product and provides contrast with either dark or light objects. The sides and top assemble easily with hook-and-loop strips and the unit folds down quickly into a small, slim, easy-to-carry package with a convenient carrying handle. Available in three sizes.

Description	Folded Size	Part No.
Small	16 x 16 x 1" (40 x 40 x 2.5cm)	RM1007
Medium	20 x 20 x 1" (50 x 50 x 2.5cm)	RM1008
Large	24 x 24 x 1" (60 x 60 x 2.5cm)	RM1009



Calumet Cocoon 70

Perfect for small products, these egg-shaped plastic coves are made up of four translucent diffusion panels. These "original" Cocoons are made of a specially formulated plastic that offers optimum light transmission and diffusion. Each features three photo portholes so you can shoot your product from overhead, at a 45° angle or horizontally. Unlike even light boxes, Cocoons eliminate the blooming of digital highlights and can be lit with sunlight, skylight, full-spectrum fluorescent, HMI or flash. Each is specifically designed for the angle of view and focus needed by a 55-60mm macro lens on a 35mm camera or equivalent. To change the colour of your background, simply unzip the Cocoon and insert a paper backdrop cut to size. The Cocoon can be disassembled for easy storage. **RM1013**

Calumet Cocoon 80S

Calumet's fabric Cocoon 80S is an extension of plastic cocoons. This collapsible, lightweight, compact cube is ideal for photographing medium- and large-sized products — especially those with reflective surfaces. The structure is covered in a translucent fabric that can be lit from the sides, top, back, front and even bottom with a shooting table. One side is secured with a zipper and features an 8" (20.3cm) slit to insert the camera lens. A matching fabric insert is included to provide a seamless horizon inside the Cocoon 80S. The entire 31.5 x 24 x 23" (90 x 61 x 58cm) cube collapses to 14 x 2" (36 x 5cm) and slides inside a convenient pouch for easy storage and transport. **RM1003**

Cocoon Specification Chart

Model	Folded Size	Dimension (WxHxD)	Part No.
Cocoon 70	9 x 12" (23 x 30cm)	17 x 20 x 27" (43 x 51 x 69cm)	RM1013
Cocoon 80S	14 x 2" (36 x 5cm)	31.5 x 24 x 23" (80 x 61 x 58cm)	RM1003

Calumet Tabletop Studio

Here is the ultimate in portability and convenience when it comes to small-product tabletop photography. The Tabletop Studio is a lightweight and compact shooting surface that is perfect for small objects such as jewellery, models, flowers and much more. Consisting of no more than a folding metal frame and a single piece of 23.25 x 35.5" (59 x 90cm) diffused polypropylene, the Tabletop Studio sets up in seconds to provide a professional-quality, seamless shooting surface that can be lit from any direction, including below the subject. It can be placed either on the ground or on any smooth flat surface.

The lightweight metal frame features hinged front and rear legs and a hinged back, allowing it to be folded flat, taking up minimum storage or transport space. The entire Tabletop Studio weighs just 7.5lbs (3.4kg) and assembles to a very practical outside dimension of 27.5 x 23.25 x 21.6" (70 x 59 x 55cm). Recommended for use with objects weighing under 10lbs (4.5kg). **RM1017**

Calumet Portable Shooting Table

The Calumet Portable Shooting Table provides a 24 x 24" (61 x 61cm) shooting surface with an adjustable sweep. The table is great for product photography and can be lit from below thanks to its translucent surface. The shooting table weighs only 10lbs 12oz. (4.84kg), and assembles to a dimension of 24 x 24 x 43" (61 x 61 x 111cm). Adding to its versatility, the Portable Shooting Table can be disassembled and carried to your next location shoot in its travel bag. Recommended for use with objects weighing under 15lbs (6.8kg). **RM1018**

Replacement Diffusion Sheet
Contains one 24 x 50" (60 x 127cm) diffusion sheet. **RM1019**

Three-Piece Boom Arm with Counterweight

Calumet Three-Piece Boom Arm with Counterweight

This three-section boom arm is strong enough to support most light units. Fully assembled it extends to 78.8" (200cm), while dismantled it is only 28" (71cm) long and weighs just 3lbs (1.4kg). It features a pivoting clamp and a 9.5lbs (5.3kg) counterweight. It is constructed of non reflective, black anodised-aluminium tubing and includes a 5/8" stud. **MF6210**

Telescopic Remote Boom

Compact Boom with Stand Package (in front)

Standard Boom with Stand Package (in rear)

Calumet Telescopic Remote Boom

Studio shooters will appreciate the ease of light-angle control offered by this heavy-duty telescopic boom, and location shooters will enjoy its portability. The length of the boom extends from 58" (147cm) to 101" (250cm) and a remote crank at the back end of the arm controls the direction of the light source mounted at the other end up to 135°. It comes with a 5/8" stud and a 15lbs (6.8kg) counterweight. **MF6220**

Wall Mount Boom

Calumet Wall Mount Boom

This two-section boom arm and its swivel-mounting wall bracket provides a maximum extension of 82.7" (210cm). Its minimum extension is 47.2" (120cm). Movement consists of 160° vertical and 180° horizontal rotation. Fully extended, it will handle up to a 9.9lbs (4.5kg) load. A ⅝" adapter has both ¼" and ⅜" threads to accept a wide variety of lighting units. Comes in a non reflective black finish. **MF6230**

Calumet Standard Boom

The rotating head has an angle indicator that rotates the head 360° on its arm. A unique double-beam parallelogram design maintains the angle of light as you move it up and down.

The Standard Boom measures 114" (290cm) overall with a 72" (180cm) reach and comes with two 12.5lbs (5.6kg) lead-shot counterweight bags. Mounts to any Cine light stand with a 1.13" female mount. **MF6245**

Standard Boom with Stand Package

This package comes with a heavy-duty, two-section Cine Stand and casters. **MF6245KIT2**

Calumet Compact Boom

This boom features the same sleek, counterweight design as its big brother — with the exception of an angle indicator. The Compact Boom measures 52" (132cm) with a reach of 32" (81cm) and disassembles to 38" (97cm). It includes one 12.5lbs (5.6kg) lead-shot counterweight bag and head extensions are available in 18" (46cm), 24" (61cm) and 30" (76cm) lengths. It quickly assembles in less than five minutes without tools. The Compact Boom can be mounted to any Cine light stand with a 1.125" female mount. **MF6240**

Compact Boom with Stand Package

This package comes with a heavy-duty, two-section Cine Stand with casters. **MF6240KIT1**

Counterweights

These counterweights are ideal for securing booms and poles.

Calumet Extension Arm
Mounts to Studio Clamp to hold light-weight fixtures or props in position without locking. Measures 8" (20cm) long and 0.5" (1.2cm) in diameter, with a 5/8" (2cm) hexagonal stud with a 3/8" (1cm) female thread at one end and a 5/8" (2cm) stud with a 1/4-20 male thread at the other end. **MF6826**

Calumet Umbrella Adapter with Hot Shoe
Holds any shoe-mounted flash unit with an umbrella. It fits nearly any light stand with its 5/8" female mount and a reversible, 3/8" and 1/4-20 threaded female mount insert. Its swivel joint allows you to tilt head and umbrella up to 180°. **MF6829**

Calumet Studio Clamp Grip Head
A heavy-duty, multi-purpose clamp that can be mounted to a 2.5" (6cm) grip head. Used to attach light heads to stands, pipes or anything up to 2.25" (2cm) diameter. It accepts 5/8" (2cm) round extension arms and the grip head position can be rotated. **MF6821**

Calumet Swivel Umbrella Adapter
This adjustable-angle adapter provides a 5/8" female mount both top and bottom, plus one adapter with 1/4-20 and 3/8" male threads, one with 1/4-20 and 3/8" female threads, and a locking receptacle that will hold umbrella shafts up to nearly 0.5" (1.3cm) diameter. **MF6830**

Calumet Flash Shoe Adapter With 1/4-20 Female Thread
Adapt your tripod or any 1/4-20 mount to accept any shoe-mount flash. Features a thumbscrew lock to hold your flash securely in place. **MF6840**

Calumet Mini Clamp
Small yet sturdy clamp attaches to most light stands, tripods and backdrop supports and opens to 1.1" (3cm). Will accept a variety of mounting studs to attach flash heads, lights or cameras. **MF6819**

Calumet Rapid Stand Adapter For 1/4-20 Thread
Mounts onto any 5/8" post and provides a 1/4-20 threaded stud with backing nut. **MF6808**

Calumet Rapid Stand Adapter For 3/8-16 Thread
Mounts on any 5/8" (2cm) posts and provides a 3/8" threaded male stud with backing nut. **MF6809**

Calumet Quick-release Video Head Adapter

Upgrade most heads to a quick-release system. The locking handle can be repositioned by pulling outward. Camera mounts using included 1/4"-20 or 3/8"-16 screws. Sliding adapter plate includes a built-in, spring-loaded, camera alignment pin. Push-button safety lock prevents accidental release of adapter plate. **CK9007**

Calumet Video Tripod Legs

The Calumet Video Tripod Legs feature a compact design, 3-section leg adjustments, a mid-level spreader, and secure leg locks. It has a load-rated capacity of 24lbs (10.9kg), a maximum height of 51.3" (130.3cm), a minimum height of 22" (55.9cm), folds down to 24" (61cm), and weighs just 5.4lbs (2.4kg). **CK9167**

Calumet Video Fluid Head with Removable 70mm Head Bowl

The Calumet Video Fluid Head features a removable 70mm head bowl that allows you the flexibility of using the head for either video or still photography. Independent tilt and pan drag control with built-in counter-balance system. Includes quick-release plate with both 1/4" and 3/8" mounts. Load-rated capacity of 15lbs (6.8kg) **CK9075**

Calumet Sliding Adapter Plate

The Calumet Sliding Adapter Plate is for use with the Calumet CK9007 quick-release video head adapter. The rubber pads grip your equipment to prevent shifting. Includes both 1/4"-20 and 3/8"-16 camera screws and a built-in, spring-loaded, camera alignment pin. **CK9001**

Tripod Support Platform

While in the studio or on location, you can conveniently store a monitor, laptop, projector, or i-Visor Case on the 14 x 10.1 x 1.3" (36 x 26 x 3.2cm) Calumet Tripod Support Platform. This unit features one tripod support platform with 1/4"-20 and 3/8"- 16 reversible mount. It weighs only 2.4lbs (1.1kg) and holds up to 44lbs (20kg). The 15" (38cm) MacBook Pro fits perfectly on this handy platform. **CK7030**

Cross Arm Assembly

This handy horizontal cross arm can be used to mount multiple flash heads or cameras to your tripod or stand for a variety of functions. The cross arm mounts to any column with a 3/8” thread and allows for up to two flash heads or cameras or a combination of one each to be attached to its two horizontal sliding mounts. Each sliding mount features a 3/8” thread. There are two more mounts at each end of the cross arm, one 1/4"-20 and one 3/8”-16 for more mounting options. An additional 1/4"-20 / 3/8”-16 platform is also included.

The cross arm can be used for a variety of purposes. It will hold up to four flash heads for multiple flash setups. It can also handle cameras up to medium format allowing for easy and precise horizontal repositioning, or, for multiple exposures with a single camera for stereo photography. The cross arm is lightweight aluminium, measures 24” (61cm) in length and weighs only 2.7lbs (1.2kg). **CK7981**

ProSpec HDSLR Shoulder Rig

The ProSpec HDSLR Shoulder Rig is a comprehensive kit that contains all the necessary features for converting your HDSLR into a professional video rig including follow focus and matte box.

The DSLR Shoulder Mount Kit can be configured in a number of ways to meet your specific filming needs. At the foundation of the kit is the adjustable camera baseplate which is a quick-release system for securing your camera. The included camera plate can be easily swapped between the DSLR Shoulder Mount Kit and standard video tripod heads.

Creating the framework of the rig are four 15mm carbon fibre rods. One pair is 12 inches long and the other pair is 15.75 inches long. Carbon fibre rods offer a lightweight solution while maintaining the strength needed to support your video gear.

Helping provide stability and control are two adjustable front handgrips. The counterweight and the comfortable shoulder pad allow you to balance the rig on your shoulder to help reduce fatigue. For carrying the rig when not shooting or for low-angled shots there is a reversible top grip.

The V-mount battery power hub will allow you to power your monitor, DSLR, and other accessories with compatible v-mount batteries (sold separately). Included in the kit are three 18" D-Tap power cables along with an LP-E6 battery adapter.

Pull your focus with precision and ease with the included follow focus. The unit features a reversible gear plate and three lens gears. Also, the rig's matte box helps rid your videos of glare as well as provides two adjustable 4 x 5.6" filter holders. The matte box features a swing-away design so you can
easily change lenses. A set of foam donut rings are included to adapt your matte box for use with almost any lens.

Calumet 7100 Tripod with Three-way Quick-Release Head

This lightweight and compact camera support features four-section legs with convenient quick-release leg locks for fast set ups, three-position leg-angle adjustments for different height requirements, a split-shaft centre column that allows for low-angle shooting and three foam leg covers that offer over-the-shoulder carrying comfort.

It also features a three-way pan/tilt head with a 1/4-20 quick-release plate for convenient camera mounting and a safety lock for added security. This 7100 Tripod is also the perfect fit for the Calumet Small Tripod Bag (RM2151), sold separately. **CK7114**

Calumet 7300 Tripod with Three-way Quick-Release Head

The 7300 tripod features four-section legs with convenient quick-release leg locks for fast setups, three-position leg-angle adjustments to better accommodate different height requirements, a split-shaft centre column that allows for low-angle shooting and three foam leg covers that offer over-the-shoulder carrying comfort.

The Calumet 7300 Tripod also features a three-way pan/tilt head with a 1/4-20 quick-release plate for convenient camera mounting and a safety lock for added security. A spirit level built into the head makes levelling your camera quick and easy. Without its head, the 7300 Tripod is also the perfect fit for the Calumet Medium Tripod Bag (RM2152), sold separately. **CK7316**

Calumet 7500 Tripod

This mid-sized tripod features three-section legs with convenient quick-release leg locks for fast setups, three-position leg-angle adjustments with spring-loaded locks to facilitate different height requirements, a split-shaft centre column that allows for low-angle shooting, three foam leg covers that offer over-the-shoulder carrying comfort and rubber feet. It also comes with a weight hook at the bottom of the column for attaching sandbags.

A 3/8" tripod-head mount that will accommodate a wide range of different tripod heads. Also built into the tripod is a spirit level for quick and easy levelling on uneven terrain. The 7500 requires a tripod head. Without its attached head, the 7500 Tripod is the perfect fit for the Calumet Medium Tripod Bag (RM2152), or with the head attached, the 7500 Tripod is suitable for the Calumet Large Tripod Bag (RM2153), bags sold separately. **CK7500**

Calumet 7800 Tripod

This heavy-duty professional tripod provides solid camera support for all camera formats up to 4 x 5" (10 x 13cm). Features three-section legs with convenient quick-release leg locks for fast setups, an adjustable centre-brace for symmetric or asymmetric setups, and retractable rubber/spiked feet for different types of surfaces. A crank handle gears the centre column and prevents rollback. The 7800 is also topped off with a 3/8" tripod-head mount that will accommodate a wide range of different tripod heads. Also built into the tripod is a spirit level for quick and easy levelling on uneven terrain and a screw socket for attaching a carry strap. The 7800 requires a tripod head. The 7800 Tripod is also the perfect fit for the Calumet Extra-Large Tripod Bag (RM2154), sold separately. **CK7800**

Calumet 7000 Series Tripod Specifications

Calumet Twin-axis 90° Level with Shoe Mount

A critical tool for architectural and QTVR or panorama photography, this two axis spirit level mounts to a standard hot shoe. It features two shoe mounts at a 90° angle from each other. This allows the level to be attached for either horizontal or vertical camera orientation. **CK7014**

Calumet Tri-axis Cube Level with Shoe Mount

A critical tool for architectural and QTVR or panorama photography, this three axis spirit level mounts to a standard hot shoe. The third axis allows camera orientation to be changed without reseating the level, while still giving readings for two horizontal axis. **CK7016**

Spiked Feet for 7500 Tripod

Adjust the length of the spike by turning the rubber foot. The spike can be fully concealed to protect wood floors. Set of three. **CK7025**

DESIGNED AS A GRIP FOR LOW-ANGLE SHOOTING!

TRANSFORMS FROM MONOPOD TO TABLETOP TRIPOD!

Calumet 7101 Minipod

This super-compact and lightweight, single-section monopod can be taken anywhere, and could mean the difference between getting a great shot or not. Designed as a grip for low-angle shooting, the Minipod will help keep your camera above any sand, grass or moisture. It can also be used as a solid support when set against any firm object, like the hood of a car.

Made from engineered aluminium alloys, it can handle an impressive load capacity for its weight. The 7101 has a fixed height of 6.75"(17cm) and features a unique, spring-loaded male mount that will accept either 1/4" or 3/8" female threads. **CK7101**

Calumet Minipod Tabletop

Transforms from monopod to tabletop tripod! Made from the same engineered aluminium as Calumet Monopods, the Minipod Tabletop provides you the short clearance to track subjects—whether they're athletes or animals—from the ground without getting your gear in the dirt. Or use the Minipod Tabletop as a mini-tripod to shoot from a table, bench, or other elevated object. Monopod Height: 7.5" (19cm), Tabletop Tripod Height: 2.75" (7cm), Mount Sizes: 1/4 and 3/8". **CK7100**

Calumet 7000 Series Aluminium Alloy Monopods

Whether you're shooting sports or wildlife, nothing beats the convenience of a monopod for dependable camera support. These compact and lightweight models are perfect for backpacking and can be stored just about anywhere.

Made from engineered aluminium alloys, they can handle an impressive load capacity for their weight. The monopods also feature a unique, spring-loaded, dual-mount male thread that will accept heads with either 1/4" and 3/8" female threads.

Calumet 8000 Series 8x Carbon Fibre Monopods

These amazing carbon fibre monopods are significantly lighter than our standard aluminium models without compromising performance. Its 8x technology features eight layers of carbon designed to provide maximum strength and stability while keeping the monopod's weight to a minimum. These are the perfect camera support for hiking and travel.

Each monopod features both a 1/4" and 3/8" threaded mount to accommodate any camera and a fabric case with shoulder strap.

Calumet Monopod Specifications

Aluminium Alloy Monopod	Max. Height	Min. Height	Leg Sections	Weight	Max. Load	Part No.

Calumet 7061 Three-way Quick-Release Head

Ideal for DSLRs with short or medium focal-length lenses as well as medium format cameras. Featuring individual forward and side tilt locks and pan-locking knob for precise control. It also offers a quick-release camera plate with 1/4-20 mount, a safety lock and a built-in spirit level. **CK7061**

Quick-Release Camera Mounting Plates

Description	Part No.
1/4-20 QR Plate	CK7001
3/8-16 QR Plate	CK7002

Calumet 7064 Heavy-duty Three-way Quick-Release Head

This heavy duty head is designed to handle up to 4 x 5 large format cameras. Featuring individual forward and side tilt locks and pan-locking knob for precise camera-placement control and a quick-release camera plate with a 1/4-20 and 3/8 mounts, a safety lock and a built-in spirit level. **CK7064**

Spare Release Plates

Description	Part No.
1/4-20 QR Plate	CK7005
3/8-16 QR Plate	CK7006

Calumet 7058 Three-Way Low Profile Head

Designed for DSLRs and Medium Format cameras this low profile three-way head features forward, slide and pan control with a built-in spirit level, and quick-release camera plate with safety lock. Constructed from durable aluminium and magnesium alloy tooling and only 1.6lbs (0.7kg) in weight and with a maximum load capacity of 9lbs (4.1kg). **CK7058**

Calumet Large Lens Gimbal Head

A smart solution for long-lens photography, including nature, landscape and sports. Provides fluid-smooth, virtually weightless, pan and tilt movements that will not only improve your performance and image quality, but will also minimise accidental damage. Its gimbal design makes it possible to rotate your lens around its centre of gravity and with the utmost precision and safety. Simple, straightforward design and high-quality construction make the Gimbal Head easy to use in all types of environments and all sorts of weather. **CK7075**

Description	Part No.
QR Plate for Gimbal Head	CK7076

Calumet Pro-D Series Ball Heads

Pro-D Series Ball Heads are made of the highest-grade materials to provide years of dependable performance. They feature smooth lubricated movements, 360-degree calibrated panning, independent pan and ball-locking knobs, adjustable-drag control for maximum performance for different camera/lens configurations, a quick-release mounting plate and a built-in spirit level for quick and accurate setups. Each model provides smooth ball-levelling movement with a 90-degree slot for quick conversion from horizontal to vertical formats.

Each Calumet Pro-D Series Ball Head is backed by a three-year limited parts-and-labour warranty.

Description	Part No.
Pro D Series 7046 Ball Head w/Adj Drag Control	CK7046
Pro D Series 7047 Ball Head w/Adj Drag Control	CK7047

Pro D Series 7049 Ball Head w/Adj Drag Control	CK7049
1/4-20 Release Plate for 7042/7045	CK7003
3/8-16 Release Plate for 7042/7045	CK7004

Calumet Quickgrip Action Head

This Pistol Grip Head is easy and intuitive to use and provides very fast, flexible and secure camera positioning. With free movement on all axis allowing you to position your camera with up to a 180° sphere. Includes Quick-release plate with 1/4-20 thread. Ideal for DSLR cameras with zoom lenses and lightweight medium format cameras. **CK7033**

Calumet 7052 Quick-Release Tilt Head

Handy compact head ideal for use with monopods or small tripods. The convenient quick-release plate allows for safe and easy mounting and its safety lock prevents accidental release. The head provides 180° tilt movement and can be mounted to any 1/4" or 3/8" male threaded mount. The enclosed quick-release plate comes with a 1/4" mount. **CK7052**

Calumet Cleaning Solutions

Keeping your camera, lenses and optical equipment clean and dust-free will ensure you get the very best and highest quality results time after time. Calumet offers a complete range of portable products to allow for regular maintenance of lenses, viewfinders, LCD displays, video equipment computer monitors and scanners whether in the studio or out on-location.

Chamois Cloth

A high-quality, synthetic, 16 x 16" (40 x 40cm) cloth that is perfect for final cleaning stages of digital cameras and lenses, LCD screens, monitors and more. **CQ1110**

CRT/LCD Screen Cleaning Kit

Includes 2oz (59ml) Optical Cleaner Spray Fluid, three each wet and dry cloths and a 16 x 16" (40 x 40cm) Chamois cloth. **CQ1030**

MicroFibre Lens Cloth

This 8 x 12" (20 x 25cm) lens cloth is also excellent for cleaning LCDs, television and computer screens. Great to keep with you at all times. **CQ1115**

Single-Use Screen & Optical Cloths

Individually packaged wet and dry cloths for cleaning cameras, lenses, LCD displays, DVDs and CDs. Pack of 12. **CQ1160**

Blower Bulb

This all-rubber blower produces a strong burst of air to clean lenses, cameras, projectors, etc. Approximately 5.25" (13cm) long, 2.25" (5.7cm) diameter. **KT0260**

Deluxe Lens Cleaning Tissues

Safe for coated lenses. Pack of 50 2.75 x 4.75" (7 x 12cm) tissues. **CQ1165**

Silicone Blower Bulb

Gently blows small dust particles off your valuable DSLR sensor and optical equipment. Safer than using compressed air or liquid propellants. A built-in check valve helps prevent particles from re-entering the blower while the flat base allows the blower to stand upright, keeping the nozzle clean. **KT1501**

Screen & Scanner Cleaner Spray

Cleans dust and smudges from camera, lenses, scanners, electronic screens, etc. Also offers long-lasting anti-static protection. Use with chamois or microfibre cloth.

Size	Part No.
2 oz (59ml) Spray	CQ1150
8 oz (236ml) Spray	CQ1155

Blower Brush

These rubber blower, soft camel-hair brushes are a must for every darkroom, gadget bag, slide show, etc. The soft bristles will not scratch the most delicate surfaces. **KT0262 (Large)**

Optical Glass Cleaning Kit

Includes 1oz Optical Cleaner Fluid, fifty 2.8 x 4.8" (7 x 12cm) tissues and a 5 x 8" (13 x 18cm) Chamois cloth. **CQ1020**

Calumet Professional Camera Filters

Manufactured from premium glass in Germany to the highest standards for professional photographers, Calumet's filters are available in three different grades. Most filters are available in all popular sizes between 49mm and 82mm. Call or visit our website for details.

Calumet Digital Super-Multi-Coated Filters

These filters are the best available filters for your high quality lenses. In addition to the six layers of reflection-reducing coatings and top quality glass, each Digital SMC filter has a resilient final coating that is low-reflective, scratch-resistant, and dirt and water repellant. The ultra-thin profile ensures the only thing you'll see is the filter's intended effect. These filters are available in UV and Circular Polarizer.

Calumet Multi-Coated Filters

These filters are designed to prevent flare while protecting your lens and enhancing photos. Top optical quality glass and six layers of reflection-reducing coatings result in minimal back reflection of 2%. Premium materials and assembly ensure each filter's durability. These filters are available in UV, Sky 1A, Circular Polarizer, Linear Polarizer, Close-up +1, +2 and +4, XO Yellow-Green, 8 Yellow, 15 Yellow-Orange, 25 Red, 11 Green, 80A, 80B, 81A. 81B, ND2X, ND4X and ND8X.

ProSpec Imaging Twin-Channel Battery Charger

This versatile Twin-Channel battery charger can recharge up to two of the same or different camera batteries simultaneously. The battery charger can handle almost any camera battery by using one over 25 different battery plates available (sold separately).

The super-fast charger is three times as fast as standard chargers and has built-in circuitry to protect against short-circuits, overcharging, and overheating. The LCD displays the charging status of each battery including the battery capacity and charging voltage.

Additionally the unit serves as a battery tester and can show the charge state of your battery even with the charger unplugged by pressing the "test" button. The charger also has a USB port to charge your iPhone, Smart Phone, or MP3 device. **CJ1104**

ProSpec Imaging International Battery Charger

An international battery charger that accepts a wide selection of battery plates (sold separately) for charging most digital camera and camcorder batteries. The kit includes a car charging cable, US, British and Europlug power adapters so you'll be able to charge your batteries wherever your travels may lead you. **CJ1110**

Calumet Posing Stool

Put your portrait subjects at ease with this comfortable and easily adjustable posing stool. It features a soft-padded seat that rotates 360° and smooth, pneumatic height adjustments from 18 to 26.5" (46 to 67cm). It also comes with sets of five glider feet and five rotating casters. **MF6100**

Calumet Heavy-Duty Background Support

Perfect support system for 53" (135cm) and 107" (272cm) paper or muslin backgrounds up to 12' (3.6m) wide. Package consists of two heavy-duty stands; one heavy-duty, four-section crossbar and a carrying case. Maximum stand height: 12' (3.6m). Maximum background width: 12' (3.6m). **MF6095**

Calumet Heavy-Duty Background Support Bar Only

This four-section bar extends to 12' (3.6m). **MF6096**

Calumet Posing Table

An adjustable posing table that extends from 31" to 51". Includes five casters and five gliding pads to suit your specific shooting needs. **MF6105**

Calumet Background Bag

Transport or store your muslin background in this lightweight and portable bag. It features a convenient, full-length Nylon zip across the top for easy access as well as a detachable Nylon shoulder strap that is adjustable for comfortable transport. **RM2220**

Calumet Background Support Kit

Kit includes two aluminium stands, one four-section aluminium crossbar and a durable fabric carrying case. Maximum stand height 9' (2.7m). Maximum background width 12' (3.6m). Overall bag length 44" (112cm). Approximate weight 17lbs (20kg). **MF6090**

Calumet Background Support Bar Only

This four-section bar extends to 12' (3.6m). **MF6091**

Calumet Sprinter Collapsible Hand Cart

A collapsible, lightweight hand cart that provides convenient transport of equipment weighing up to 91kg. It is easy to set up and fold for storage. Its rubber wheels offer smooth movement and a very tight turning radius in tight quarters. **MF5003**

Calumet Muslin Sheets

These 100% muslin backgrounds come either hand-painted*, hand-dyed**, or solid-coloured*** to suit a wide variety of photo applications, including those involving pets, sports, kids and more. Although the solid-coloured and hand-dyed muslins are machine washable, please be sure to check the care and cleaning instructions provided prior to washing. Chromakey Muslin Sheets are available in either blue or green (not shown). One size 10 x 12' (3 x 3.6M) is available. All come with a carrying case.

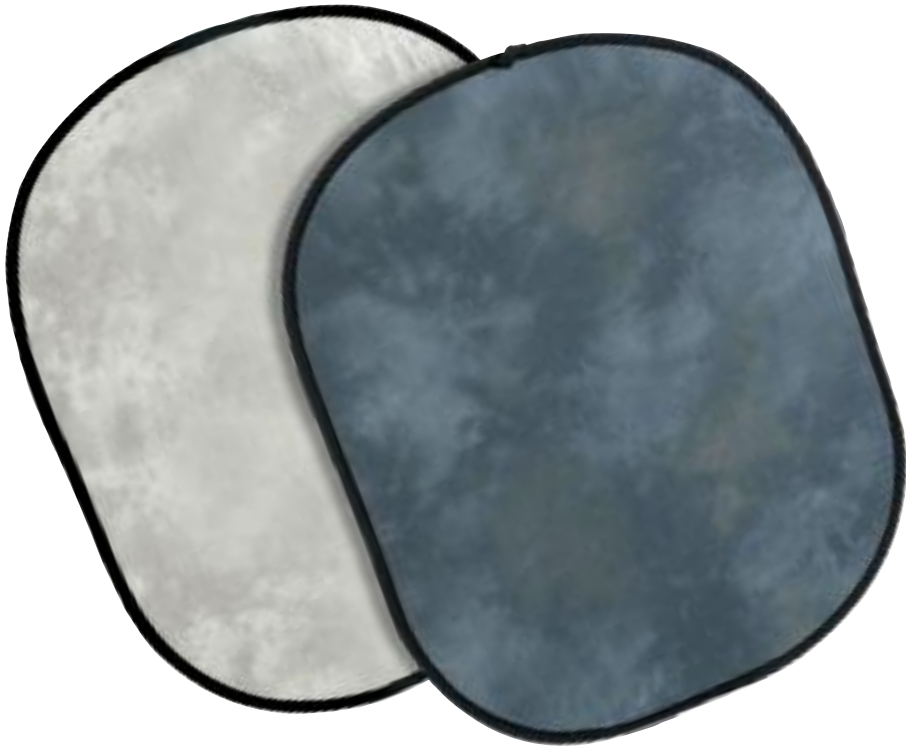
Calumet Heather Grey/Midnight Blue Hand-Painted Collapsible Background

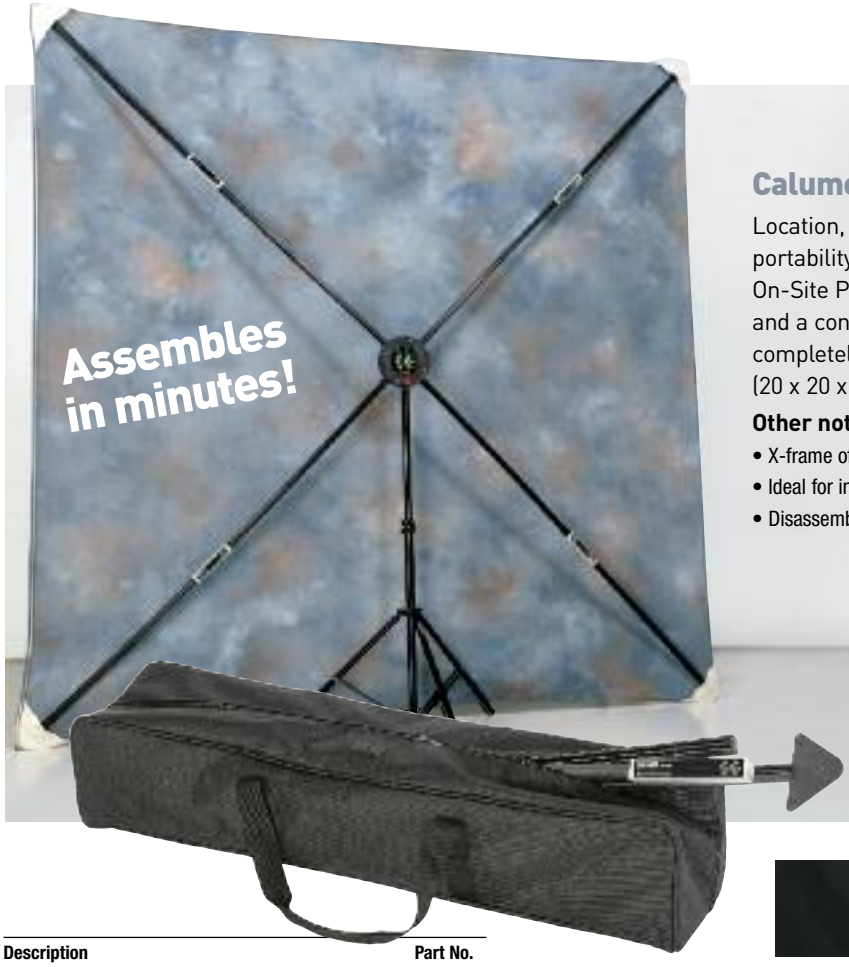
This hand-painted, collapsible muslin background is constructed from 100% cotton muslin. Its dimensions are 4 x 5' (1.2 x 1.5M), making it convenient for hanging behind or around subjects, products or props. It comes in a carrying case and is for use with the Calumet Collapsible Muslin Stand (MF6865). Since hand-painted muslins contain acrylic paints, we do not recommend washing. If it is absolutely necessary to wash your muslin, we recommend hand washing. Since the muslin background is sun dried, it is lightfast and will not fade over time. It is not, however, flame retardant.

The background can be easily collapsed and stored in three simple steps. Always allow ample space around you when setting up your background. Exercise care when folding and unfolding to prevent personal or property injury. Care and folding instructions are included with the product. **MP6106**



Calumet Collapsible Muslin Stand

This lightweight and compact aluminium stand is perfect for holding our Collapsible Muslin Background. Its adjustable legs allow the background to either rest on the floor or be suspended off the floor. It conveniently folds up for storage and portability. **MF6865**



Calumet On-Site Portable Background System

Location, portrait, and event shooters will rejoice at the ease and portability of this self-contained background system. The Calumet On-Site Portable Background System consists of a unique X-frame and a convenient adjustable stand. It assembles in minutes, is completely self-supporting, stows away neatly in its own 8 x 8 x 36" (20 x 20 x 92cm) case and weighs just 12.8lbs (5.8kg).

Other notable features include:

- X-frame offers swift setup and holds muslin flat
- Ideal for individual portraits, couples and families
- Disassembles easily and stores in system case

Calumet Seamless Background Paper

Calumet's background paper has a high-quality, fine-tooth, non-reflecting surface for enhancing photography. Just add a background stand and these rolls instantly become sweeps. We make an extra effort to ensure that your background paper arrives safely. Each 107" (2.72M) and 140" (3.55M) wide background paper listed on this page is wound on a tough, rigid core for extra support. Calumet background paper is wrapped in a plastic sleeve to trap out moisture and dirt, then packed in a sturdy tube or carton for maximum protection during shipping.

Calumet Graduated PVC Backgrounds

Now you can quickly achieve what would usually take hours with lights and single-tone backgrounds! Each sheet is handmade to achieve a silky matte, non-glare surface. Made of synthetic PVC material, these water-resistant backgrounds can be cleaned with a mild soap solution and soft cloth, making these graduated backgrounds reusable.

i-Visor Pro LS Laptop Case

The i-Visor Pro LS case not only allows you to transport your laptop computer safely, but it also doubles as a visor hood that enables you to view your monitor easily under even the brightest lighting conditions. For 17" laptops. **RM1902**

Calumet Laptop Sleeve

This durable sleeve will protect your 15" laptop from the daily bumps and grinds with its slim, top-loading design featuring a smooth-action zipper with large pull for easy access. Made of 4.5mm thick lightweight lycra fabric blend and stylish black leather trim, it provides great protection when used on its own or inside another bag.
RM2242

Calumet Point-&-Shoot Utility Pouches

When you're out taking pictures, you want your camera to be protected from the elements and you want to have your accessories in one organised place. These padded pouches provide a safe place to store your small point-and-shoot digital camera or compact camcorder when not in use.

Features:

- Easy-access hinged lid made of water-resistant ripstop nylon with Velcro and clip-lock protection (A)
- Durable ballistic-pattern nylon exterior (B)
- Zipped front accessory pocket with two storage pouches (C)
- Fully padded main pocket (D)
- Convenient double-Velcro belt loop designed for quick removal and fastening (E)
- Reinforced adjustable shoulder strap with quick-release clips (included)

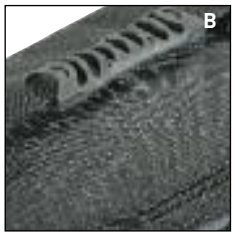
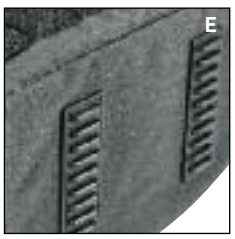
- Durable 100% ballistic-pattern nylon exterior
- Built-in mini D-ring and clasp for attaching keys, mobile phone, etc.





Calumet 3-Head System Lighting Case

This convenient rolling case is the perfect storage and transportation solution for your lighting system. The main compartment measures 34"(87cm) L x 15"(38cm) W x 8"(20cm) D. Recommended for strobe and continuous lighting systems such as the Genesis, and Bravo lights. Also fits stands, umbrellas, reflectors, cords etc. **RM2301**

Calumet Background Bag

Transport or store your muslin background in this lightweight and portable bag. It features a convenient, full-length nylon zip across the top for easy access as well as a detachable nylon shoulder strap that is adjustable for comfortable transport. **RM2220**

Calumet Soft-Shell Tripod and Travel Bags

These affordable travel bags are ideal for transporting light stands and tripods. Constructed of durable Cordura®, the bags use heavy-duty nylon zips on both main and outside compartments. A 2"(5cm) wide sling strap wraps around the entire bag for safe support.

Description	Dimensions (L x D)	Part No.
38" Case	37.5 x 9" (95 x 23cm)	PI5110
48" Case	47.5 x 9" (121 x 23cm)	PI5125

Calumet Stand/Tripod Cases

Fully padded throughout to ensure your equipment is protected from the inside out. A pull-over fabric insert allows you to safely and securely wrap your equipment. Internal tie-down straps.

Model	Internal Dimensions (W x D x H)	Part No.
STC35	35 x 8 x 7.5" (89 x 20 x 19cm)	RM2140
STC46	46 x 8 x 7.75" (117 x 20 x 19cm)	RM2143
STC49	49 x 9 x 7" (124 x 23 x 18cm)	RM2145

Every case comes with an adjustable shoulder strap with removable pad.

Calumet Tripod Bags

Transport and store your tripod safely in this durable bag. Heavy-duty nylon zips on both the main and outside compartments provide quick and easy access to equipment. A sling strap wraps around the entire bag for safe support, while an adjustable shoulder strap with removable pad offers carrying comfort. Tripod bags can be folded compactly for storage.

Calumet RC1188
Rolling Camera Case

Designed for both the photographer flying to location shoots or just travelling across town to shoot a wedding, this versatile rolling case will get you and your valuable camera system to the job safely. It features innovative materials and construction techniques that provide maximum protection, smooth transport, and rapid access to your gear.

Features:

- Holds up to two or three DSLR camera bodies, three or four additional lenses, a portable flash and accessories
- The self-contained main storage compartment features adjustable dividers for custom protection of your changing system needs, and is removable allowing the case to be also used as a suitcase or general accessories
- Built-in sturdy casters provide ultra-smooth and quiet transport, while heavy-duty guard rails protect your case while going up and down curbs and stairs.
- Retractable, lightweight aluminium handle makes rolling case through airports or across town a breeze and stows out of the way while you work out of your case.
- A pop-out rear prop keeps case at a comfortable working angle, and equipment off the ground
- Exclusive expandable compartment can accommodate an optional tripod or light stand case
- Meets most domestic airlines carry-on requirements
- Unique design and materials minimise protrusions and maximise equipment protection and manoeuvrability
- Five-Year limited warranty

Calumet is so confident that you will love Brilliant Inkjet Papers that if you try it and are not satisfied, we will give you your money back.

Brilliant Supreme Inkjet Paper

Brilliant, the name associated with the finest traditional silver-halide papers, is now proudly applied to a set of quality digital media. These premium papers have been engineered to provide your colour or black-and-white images with superb photo-quality output from your inkjet printer. These bright-white papers with special microporous coatings prevent bleeding and over-laydown and allow for instant handling, high resolution and vivid colour saturation. Brilliant Supreme papers, available in glossy, lustre and double-sided matte surfaces, are compatible with either pigment or dye based inks. Additionally, in the Brilliant tradition, these new high-quality papers represent excellent value when compared to similar papers on the market today. For more information on Brilliant Papers and to download the Brilliant Paper ICC Custom Profiles, go to www.brilliantpaper.com

Brilliant Museum Fine Art Digital Media

Brilliant Museum digital media have been especially formulated to meet the high standards and preferences of the most discriminating fine-art printer. Available in two different substrates, SilverGloss and Satin Matte, and each comes in a choice of two base tones, White and Natural. SilverGloss are the acid-free, alpha-cellulose papers that emulate the classic, air-dried, glossy fibre-based traditional silver-halide papers used by the master black-and-white printers. Satin Matte is a 100% cotton rag substrate media that features a rich, satin-matte surface that, unlike some matte surface papers, is not dead or flat. The White base papers are slightly optically brightened — yet archivally proper — to produce an elegantly subtle punch that really enhances some images. The non-brightened neutral Natural base doesn't exhibit any of the usual dull yellow look that is found on many of the other non-brightened papers on the market today. All four types are a heavy, 300 gsm with a thickness between 18 and 19 mils, depending upon type.

For optimum picture quality, download the Brilliant paper profiles at www.brilliantpaper.com

Reasons to shop with Calumet.....
